INSTRUMENTS AND CONTROLS)**

**100%
CONNECTED**

Every mission has a EUROCARGO right for it.

VERSATILE

From the urban environment to the most inaccessible off-road locations, Eurocargo can manage them all.

COMPLETE

The choice of vehicle is vast with over 11.000 vehicle combinations. A complete range for all.

ROBUST

The parallel straight frame ensures strength and light weight. The most robust choice for all missions.

CAPABLE

From the city centre to the harshest conditions, Eurocargo is capable for your need.

CONNECTED

IVECO Connected Services are designed to maximize uptime and your business productivity.

Exterior style.

Stylish in all environments.

The external appearance of the Eurocargo combines style with functionality. Headlamps with LED daytime running lights as standard, Xenon headlamps available, radar for ADAS functions, steps and grab handles to access the windscreen and side air deflectors designed to keep the door and mirrors clear even in adverse weather conditions.

MLD – Crew Cab

1 Step

2 Steps

Interior comfort.

Driver comfort and ease of use are the hallmarks for the Eurocargo cab. The new dash panel with the 10 inch instrument cluster and the 7 inch central display screen incorporating DAB radio provide the driver with all the information they need. The new steering wheel and steering column controls ensure that all is within fingertip reach of the driver.

Advanced Driver Assistance Systems (ADAS).

When technology takes care of your safety and that of other road users to give you a calm, stress-free driving experience.

General Safety Regulations.

The latest European General Safety Regulations have brought to Eurocargo new features for Advanced Driver Assistance Systems and protection of other road users.

Cyber security.

Cyber security has also been addressed. IVECO has developed Cybershield, a multi level security framework covering Electronic Control Units, internal vehicle ECU to ECU communications and all external interfaces to ensure that the vehicle is fully protected from Cyber attack.

Lane Departure Warning System (LDWS)

The LDWS alerts you when the vehicle changes lanes without the direction indicators activated.

Electronic Vehicle Stability Control (EVSC)

The EVSC system monitors lateral loads and reduces power and applies brakes to control potential spins or rollover.

Advanced Emergency Braking System (AEBS)

The AEBS system measures the distance from the vehicle in front and calculates the time of a potential collision if the driver is distracted. The brakes are applied automatically to reduce the vehicle speed and risk of collision.

Adaptive Cruise Control (ACC)

ACC adjusts the vehicle set speed to maintain a safe distance to the vehicle in front.

Reversing Detection (REV)

This system shows the driver the view from the rear of the vehicle when reversing. It is achieved with a camera and the centre display screen on the dashboard.

Alcohol Interlock (ALC)

ALC prevents people whose driving is impaired due to excess alcohol consumption from driving a motor vehicle. This provides a standardized interface for the fitment of the IVECO factory option or any compatible aftermarket device into the truck.

Safety for all road users.

Advanced Driver Assistance System – ADAS

When technology takes care of your safety and that of other road users to give you a calm, stress-free driving experience.

1 DDAW: DRIVER DROWSINESS ATTENTION WARNING
This feature monitors the driver alertness and provides a warning when they are drowsy. It helps to avoid dangerous situations for the driver, passengers and all others road users.

2 ISA: INTELLIGENT SPEED ASSIST
Intelligent Speed Assistance (ISA) is a system which aids the driver in observing the appropriate speed for the road environment by providing visual and acoustic feedback to the driver of the speed limit.

3 MOIS: MOVING OFF INFO SYSTEM
The system detects and informs the driver of the presence of pedestrians and cyclists in the close-proximity forward blind-spot of the vehicle.

4 BSIS: BLIND SPOT INFO SYSTEM
The Blind Spot Information System (BSIS) monitors the vehicle side and front side and warns the driver about Vulnerable Road Users in close-proximity.

5 TPMS: TYRE PRESSURE MONITORING SYSTEM
TPMS has the aim to constantly monitor the status of Pressure and Temperature of the tyres and provide warning to the driver whenever a problem occurs.

6 ESS: EMERGENCY STOP SIGNAL
ESS enhances safety by flashing the stop lamps to warn other road users to the rear if heavy or emergency braking is being applied to the vehicle.

Driving pleasure.

Every moment driving the Eurocargo is a pleasure thanks to the performance and driveability enhanced with the new instrumentation, the new multifunction steering wheel and new column stalk controls. The added safety provided by the new ADAS features gives reassurance from the city to the highway. With 100% connectivity, the driver is always able to feel connected.

100% connected brings a world of services.

All of our vehicles comes with connectivity box installed, allowing the full control of your vehicle performance and state of health. Activate the Start Pack Standard to discover the potential of IVECO Services Solutions. The Start Pack Standard includes IVECO ON Access customer portal, Uptime Monitoring & Management and the Easy Cargo App. Other packages and single services are available to support our customers in improving fuel consumption and driving style.

The IVECO Driver Pal is available as optional and brings driver vocal companion with Alexa technology into your IVECO vehicle for helpful tips and safer driving.

Sustainability.

CNG is the most environmentally-friendly fuel commercially available. IVECO's new 6,7 litre CNG engine available with 220 hp to 280 hp. The vehicle's features are identical to the diesel versions. Thanks to the EU derogation, 18 t CNG vehicles can have a bonus mass to match the increase in tare weight. Vehicles below 18 t have optional higher GVW plating available to compensate. The Eurocargo Natural Gas is particularly at home in major cities – its low emissions mean it is allowed to drive in restricted traffic zones and its quiet operation makes it perfect for night-time work (PIEK Quiet Truck Test Certified at less than 72 dB).

CNG fuel tanks and range.

Choice of CNG tanks on either side and behind the cab ensures that a range of up to 600 km range with 6x115 litre gas tanks on the side members or 900 km with additional 3x140 litre at the rear of the cab.

Tanks on both sides and behind cab

Line up for CNG.

High truck performance.

The new 6.7 l CNG engine is available at 220, 250 and 280 hp with 800, 850 and 1.000 Nm of torque ensuring that whatever your mission there is a sustainable option for you. When powered by biomethane, it is the most efficient and readily available solution for decarbonising transport and to shrink your carbon footprint.

Transmissions.

The 8 speed ZF automatic transmission ensures the optimal driveline. A 5 speed Allison automatic transmission is also available for those missions that require it.

I90EL	19.000				280	1.000	5 speed Allison	Rear Air	6.570

Versatile.

The right driveline for your mission.

The diesel engines on the Eurocargo are Tector 5 four-cylinder 4,5 litre and Tector 7 six-cylinder 6,7 litre diesel engines. The range includes seven power levels from 160 to 320 hp, with a maximum torque of 1.100 Nm.

These engines are mated to 6 or 9 speed manual gearboxes or the 8 speed ZF automatic transmission to ensure the optimal driveline. A 5 speed Allison automatic transmission is also available for those missions that require it.

Tector 5

Tector 7

DIESEL ENGINES

Euro VI engines	No. of cylinders	Displacement	Power	Max torque
Tector 5	4 in line	4,5 litres	118 kW (160 hp) at 2.200 rpm	680 Nm from 1.100 to 1.600 rpm
			137 kW (190 hp) at 2.200 rpm	700 Nm from 1.100 to 1.600 rpm
			152 kW (210 hp) at 2.500 rpm	750 Nm from 1.400 to 1.800 rpm
Tector 7	6 in line	6,7 litres	162 kW (220 hp) at 2.500 rpm	800 Nm from 1.250 to 1.900 rpm
			185 kW (250 hp) at 2.500 rpm	850 Nm from 1.250 to 2.050 rpm
			206 kW (281 hp) at 2.500 rpm	1.000 Nm from 1.250 to 1.950 rpm
			235 kW (320 hp) at 2.500 rpm	1.100 Nm from 1.250 to 1.900 rpm

Line up.

Diesel engine range 4x2 and 4x4.

Choose from 11 GVWs, 17 wheelbases, 7 engine powers, 2 fuel types, 4 transmission types, 4 suspension types and 4 cab types. Over 11.000 vehicle combinations are available. A line up that will meet all requirements.

Suspensions.

You can choose the suspension type to suit any mission:

- Parabolic or reinforced parabolic leaf springs for on road use.
- Semi-elliptical leaf spring for more rugged terrains.
- Air suspensions controlled by an ECAS (Electronically Controlled Air Suspension) system to guarantee a constant vehicle height regardless of the load, they can be fitted to either the rear axle only or to both axles. They allow the vehicle to raise and lower to meet loading decks.

Mission.

Urban delivery in the city, Regional delivery city to city, Construction, Municipal and off-road, Eurocargo has always got the ideal vehicle for your mission even for the most specialised applications.

Maintenance & Repair.

You can protect the value and performance of your vehicle, and your business productivity with a Maintenance & Repair offer.

Our maintenance and repair contracts plans will maximize your vehicle's availability and you can rely on our skilled workforce and guaranteed high-quality IVECO Genuine Parts.

Combine the M&R elements to build a contract tailored to your needs:

MAINTENANCE

Maintenance and lubricants, oils and fluid changes according to the Maintenance Plan as described in the customer handbook.

DRIVELINE

Covers engine, fuel injection, gearbox, transmission propeller shaft and axle repairs.

NEW

DRIVELINE PLUS

Provides an intermediate level of protection, adding to the DRIVELINE contract repairs to exhaust system, starter and alternator; other gearbox components, electricals and PTO Multipower.

WEAR

Covers clutch, brake pads, brake discs, brake drums or brake linings for drum brakes.

FULL REPAIR

Raises further the level of cover extending the DRIVELINE PLUS contract with repairs to the braking system (excluding wear components), clutch cylinder, suspension, heater, air conditioning, air compressor.

Additional coverage.

You can further customize your cover with additional options:

ANS 24-Hour assistance

Roadside assistance service for repairs covered by the warranty.

Towing service

Tow truck service conveying to the nearest repair point for repairs covered by the warranty (tow truck not included).

Auxiliary batteries

Repair and/or replacement of batteries, including ANS 24-Hour callout where covered under the maintenance agreement.

Oil top up

Engine oil filling limited to 2 litres per 3.000 km.

Light bulbs

Replacement of faulty lamps.

Wiper blades

Replacement of windscreen wiper blades once a year.

Choose and combine to fulfill your requirements:

IVECO Services Solutions.

The complete development of state-of-the-art vehicles is important to provide our customers with Mobility Solutions that best meet their needs. At IVECO, our goal is to improve the productivity and profitability of our customers' businesses. We do this by maximising vehicle uptime and efficiency, driver safety and environmental protection.

Uptime

IVECO Uptime Services are designed to maximize your vehicle's uptime by avoiding unplanned stoppages through real-time vehicle monitoring, remote diagnostics and maintenance and repair schedules.

Productivity & Efficiency

IVECO helps you reduce fuel consumption, optimise routes and improve your drivers' driving style through vehicle performance reporting and analysis, for a more productive and efficient business with lower running costs.

Driver Care and Safety & Security

Improves comfort and safety levels to make the driving experience easier and more enjoyable. Driver Care services are meant to assist you throughout your journey, making your experience behind the wheel easier and more comfortable. Safety & Security services are designed to promote a safer driving style, monitor the drivers' performance and increase on-road safety.

Parts & Accessories

Our extensive offer of high-quality parts and services enables you to customize your vehicle and enhance your life on board.

Service bundle.

All vehicles come with the connectivity box installed, allowing you to activate the Start Pack Standard and combine it with a choice of Premium Mobility Solutions tailored to your business goals (terms and conditions apply).

Standard service bundles.

Start Pack

A set of services aimed to simplify your life on board with the following services:

- **IVECO ON Access** for you to monitor your vehicles and optimize your fleet's performance and efficiency.
- **Uptime Monitoring & Management** to maximize your vehicles availability.
- The new **Easy Cargo App** to make your life as a driver easier.

Premium service bundles.

You can tailor your Mobility Solution with additional Premium bundles.

Productivity Pack

You can boost your productivity by extending the Start Pack standard with:

- **IVECO ON Plus**, which enhances your IVECO ON experience vehicle positioning updates.
- **Web API** to manage your fleet effortlessly with your own fleet management system.

Safety Pack

Enhance your safety on the road and your vehicle's security with:

- **IVECO ON Plus**, which enhances your IVECO ON experience vehicle positioning updates.
- **Professional Safe Report** to evaluate and improve your driving style to be safer on the road.

Assistance Non-Stop

IVECO Assistance Non-Stop is just a phone call away 24 hours a day, 7 days a week to keep your Eurocargo and your business running.

IVECO Non-Stop is the original IVECO smartphone application that you can use to communicate with IVECO if your vehicle breaks down. Just insert your vehicle information (VIN and registration plate) and with a simple push of a button you can send a request for assistance to the IVECO Customer Uptime Center. We will take care of your request, activate the nearest workshop and follow up on the vehicle's repair. Through the app you can receive updates on the progress of your vehicle's assistance.

Genuine Parts

HIGH PERFORMANCE

IVECO Genuine Parts will keep your Eurocargo performing at its best during its long years at your service – and cost-efficiently. With these parts, you will enjoy the peace of mind of knowing they have been rigorously tested for safety, consistency and reliability, and come with a one-year warranty.

IVECO
CAPITAL

IVECO CAPITAL is the captive financial services Brand of Iveco Group and offers a full range of financing, leasing, insurance and ancillary services for commercial and industrial vehicles. Our long-standing presence in the market as mobility financing enabler allows us to provide flexible and tailored financial solutions and dedicated bundle offers*, to suit different customer missions and goals for a full peace of mind.
